With the growing opportunities for connecting and communicating online, how do parents effectively engage in conversations about privacy, safety, and digital citizenship with their children?

Join us for a session in which we will explore how social media is changing our learning and cultural landscape, and the impact of parents as role models and co-participants in their children's digital lives.

Learn about excellent resources such as Common Sense Media that will prove useful for parents.

*This free event is for parents of all school aged children

*Travel and childcare subsidies available on request at the door
